Border Collie Club of Great Britain 45th Championship Show held 5th September 2021

I would like to thank the committee for inviting me to judge Dogs and thank you for my lovely present in a treasured bag. Very well run show, no easy task working around Covid restrictions; great atmosphere, very friendly courteous, enhanced by a guest visitor. Sunshine and large rings; big thank you to my two efficient stewards, spending their wedding anniversary looking after me and my ring.

I expected lock down to affect young dogs but it had made some older ones less confident, and some sensitive, seen on the move when handler changed pace or put pressure on the lead. Impressed in the majority to find dogs fit with muscle tone. Heads had improved with few having too deeper stops and heavy jowls. Shoulders and upper arms still need a lot of work, no point having drive without reach.

Minor PUPPY Dog 5

1st Laceway DON'T STOP ME NOW Miss H Fawcett 8month big boy but well balanced and lovely head and expression, good eye and tight lips and stop not over done . Good shoulders that gave him a long reach of neck. Tad long in loin, still has a lot of maturing to do love to see him when chest has dropped and ribs sprung then this won't show. Nice turn of stifle and good length of tail; rear movement still needs to strengthen thanks I expect to Covid.

2nd ALTRICIA LUCKY STRIKE Miss T Wilkinson Blue Merle with lots to like, nice head and expression nothing overdone. Head needs to flatten more which it soon will, good reach of neck as one would expect from well constructed shoulders and upper arm leading to a level topline. Good turn of stifle Again thanks to Covid, rear movement could be stronger.

3rd TIDESPRING TONIGHT I AM HERE AT TONORY Mrs J Gregory Slightly smaller of the three and well balanced (I hope he grows on). Best eye placement due to least exaggerated stop. Good conformation, movement just needs to tighten fore and aft.

PUPPY Dog 6 (1)

1st TIDESPRING TONIGHT I AM HERE AT TONKORY Mrs J Gregory more settled the perfect small package

2nd LUCKY FOR YOU WESLEY Miss A Domotori Chocolate and white With stronger head and deep stop. Had a tendency to stand wide in front. Level back, nice turn of stifle. Movement needs to settle.

3rd CHASTANSE DON JUAN Mrs D Richards Not the expression or the balance of one and two; body needs to mature to match head and would prefer slightly tighter feet, which will improve as country opens up.

JUNIOR Dog 9 (3)

1st PENDLEWAY TIME LORD Mrs J Barratt Appropriately named, as written old fashioned beside his number. Well sized moderate young man. Lovely head with gentle stop, well placed dark eye, good cheeks, tight lips, nice length of neck in good well placed shoulders and decent upper arm; level topline, little longer in loin barely noticeable as good turn of stifle. Movement good, ears useable but not a consistent showman.

2nd ARRODARE WONT BACK DOWN Mr N Smith Mr R Green Head had a deeper stop and shorter muzzle than one. More compact than some, but had good shoulders giving reasonable length of neck and perfect front. Level back held on the move and nice turn of stifle so movement flowed.

3rd ARRODARE TRUE LEGEND Lee & Ratcliffe Miss B & Miss J. Rangier ? age. Well made youngster with long tail would prefer a gentler expression and tighter lips. Moved well.

YEARLING Dog 2 (1)

1st FYGLIA CHERISHED DREAM Turns & Walkden MR&Mrs C & Miss C fourth in last class smaller dog with longer body. Prick ears that gives him an alert expression. Nicely made so moved ok but needs some show practice.

NOVICE Dog 3

1st HUNTLY FORGED IN STEEL FOR HYSTEPS Austin & Zolakova Ms S & Miss K very unsettled in Minor puppy. This time more settled different dog and moved ok. Nicely balanced young man. Good head and expression, shoulders and stifle ok; promising.

2nd FOXBARTON WAYWARD PRINCE Mrs S Price sable/white Taller rangier dog but beautifully constructed so moved well lovely length of neck level back; a very reluctant shower which gave the appearance of a very broad head.

3rd BORDALE BLUE MARVEL Mr & Mrs P Ashman Head ok with a definite stop and reluctant to use ears. Preferred the construction of 1 and 2. Movement rather erratic another covid affected ?

POST GRADUATE 7 (1)

1st QUINTOPIA FOOL ON THE HILL Geering C. Not the biggest of dogs, but well made good shoulders and nice length of neck though a little steep in upper arm. Level back held on the move. One of the few with a good bend of stifle. Good head and eye shape, though would prefer little less depth of stop, flat skull and well placed ears. Still growing his coat.

2nd FOXBARTON WAYWARD PRINCE

3rd JANBELL THE FORCE AWAKENS Mr D Pollard Nice head, with dark eye, rather a reluctant shower. Nicely made dog but movement not so true today.

All male clean head with nothing over done; defined stop, no heavy jowls well shaped and placed dark eye. Flat skull, neat well placed ears which he used. Good length of neck leading to well made shoulders and good depth of chest. Level back, nice turn of stifle on good neat feet. Movement good, excellent side on little closer going away.
